Matching Guided Questions with Types of Observations

Using the *Types of Observations* form, work with your peers to decide which Observation Type would best address the Guided Questions.

Guided Question	Observation Type(s)
How often does this infant cry in a day?	
How are the children's motor skills developing?	
What do the children most like to do during outside play?	
Why is it taking so long for the children to clean up after Choice Time every day?	
How can I share more of what children are creating during Choice Time with their families?	
What types of play (parallel, cooperative, etc.) does this child engage in during the day?	
What kind of play is happening in the block area?	
How are children being included or excluded from play?	
What am I noticing during snack and meal times?
